Kansas City, MO | katiehoang26390@gmail.com | linkedin.com/in/thuy-hoang-509bb83a

EXPERIENCE

Front-End Engineer

May 2019 – Aug. 2025

Absolute Software

- Built and maintained enterprise web applications for device security and endpoint management using React, JavaScript, Redux, and Material UI.
- Developed reusable UI components and integrated frontend modules with REST APIs to support device onboarding, tracking, and management workflows.
- Implemented endpoint security dashboard features, improving usability, consistency, and maintainability across complex product modules.

Senior Front-End Engineer

Jul. 2014 – May 2019

Nash Tech

- Developed frontend applications for multiple client projects across different business domains using React, JavaScript, HTML5, and CSS3.
- Built reusable UI components and responsive interfaces to support scalable frontend development across client-facing applications.

PROJECTS

Absolute Resilience Dashboard | *React, Redux, REST APIs*

Jun. 2023 – Aug. 2025

- Built and maintained a React-based enterprise dashboard for monitoring endpoint devices and security workflows.
- Developed reusable components for dashboard modules, improving UI consistency across device monitoring and management features.
- Integrated APIs for real-time device data handling and improved the usability of complex security workflows.

Absolute Enterprise – PWA Mobile App | *React, JavaScript, PWA, REST APIs*

May 2019 – Jun. 2023

- Developed a mobile-first Progressive Web App (PWA) for device management, including search, status tracking, and freeze/unfreeze workflows.
- Built responsive UI features using React and modern JavaScript to support device management across desktop and mobile experiences.
- Partnered with cross-functional teams to deliver user-focused features and maintain application reliability.

Workforce Management System (Australia)

Jan. 2017 – May 2019

- Developed a React-based web application to support workforce operations and improve internal process management.
- Implemented frontend features, fixed defects, supported testing, and maintained application functionality throughout the project lifecycle.
- Worked with project teams to deliver responsive and user-friendly interfaces for operational users.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React, Redux, Material UI, Responsive Design, Progressive Web Apps (PWA)

CMS & Web Platforms: WordPress, CMS Management, Theme Customization

Design & Collaboration: Figma, Design Handoff, UI Implementation

Backend/API: Node.js, REST APIs

Tools: Git, Jira, VS Code

Practices: Agile/Scrum, Accessibility (WCAG), Performance Optimization, Reusable Component Design

PROFESSIONAL DEVELOPMENT

Modern Frontend and AI-Assisted Development

Aug. 2025 – Present

- Built React and TypeScript dashboard prototypes using Vite, pnpm monorepo architecture, TanStack Query, reusable UI components, and AI-assisted tools for debugging and refactoring. (GitHub Repository)

EDUCATION

VNUHCM – University of Science

Bachelor of Computer Software Engineering

Ho Chi Minh City, Vietnam

Sep. 2008 – Sep. 2013
